---

## Education

---

**Since 2016**      B.Sc, Software Engineering, University of Kurdistan  
GPA: 3.4

## Research Interest

---

My research interests include; Machine Learning, Virtualization, Data Science and Distributed Systems.

## Projects and Work Experience

---

### Researcher at UoK High Performance Computing Center

Enhancing Kubernetes Scheduler

### IoT Project

Service Placement using Docker and Kubernetes

### Software Engineering Project

Request Management System (RMS), using C# and Visual Studio's: Windows Form Application

### Android Developer

Indoor Wifi Positioning System for Android

## Teaching Experience

---

<b>Fall 2020</b>	Workshop, University of Kurdistan Course Title: Introduction to Virtualization: using Docker and Kubernetes
<b>Spring 2017</b>	Teaching Assistant, University of Kurdistan Course Title: Advanced Programming
<b>Fall 2017</b>	Teaching Assistant, University of Kurdistan Course Title: Fundamentals of Computer and Programming

## Professional Skills

---

### Virtualization and Orchestration

Docker, Kubernetes

### Data Science

Sentiment Analysis, Recommender Systems

## **Linux System Administration**

LPIC 1

## **Distributed Processing**

Hadoop

## **Languages**

**Programming** C, C++, Java, Python, C#

**Markup** LaTeX, HTML, CSS

**Web** PHP, Laravel
